Oh I see I misunderstood I thought you said Tonto had completed the 2012 DEIS...

Yes I am in the office Tuesdays and Thursdays. Available by phone Monday, Wednesday and Friday unless on leave.

Thanks,

What days are you in the office this week? Thursday?

Tonto is in Arizona. They completed scoping in 2017. I think they may release the DEIS either late this year or early in 2020.

Jason

Good morning Jason.

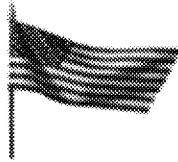

We should have a one to one meeting on this project if you have time so I can share info with you off line. This is a pretty hot topic and has already gotten a lot of media and political attention. I will give you all the folks I talked with.

Jim

p.s. Did you say that Tonto had completed its 2012 forest plan revision? If so can you send me a copy of your letter? I cant find it in the data base. Which forest region is Tonto in?

Jim

Good morning James,

Thank you for getting me up to speed on this project.

Can you send me a list of the folks from the Water Division that you worked with when preparing the scoping letter? Is there anyone else that you pulled in as an associate reviewer?

Thanks,
Jason

Good Morning Connell,

Thank you for the clarification.

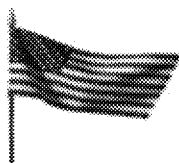

Jason this is a Hot Project with disputing stake holders, (some political), and many environmental impacts/factors. This project is akin to the oyster farm project Stephanie had years back...

There were over 3000 letters written to the NPS regarding this project just on the pre-NOI draft release for the project.

I can brief you more off line in our on team meeting tomorrow.

Jim

Hi James,

Per our prior discussion about workload, I assigned this to another reviewer.

Please call me if you want to talk further.

Thanks,

Connell

Subject: Point Reyes National Seashore GMP Amendment Assignment clarification.

Hi Connell,

I am just reaching out on this project because it is a high profile project and we may benefit from my continued lead of the review.

I wanted to clarify that I am still the lead reviewer for this Point Reyes National Seashore GMP Amendment project. I noticed what I think was an error in CDX that it was assigned to Jason Gerdes. I am the lead reviewer for NPS and I have been working on this project since October 2017 regarding pre NOI.

I have also had contact with the project manager multiple times and coordinated with our water division on the project. In addition I sent a NOI LTR November 30, 2018. I also had the benefit of Kathy's visit to the project area and her insights.

Ex. 6 Personal Privacy (PP)

By coincidence I had just prepared the ELMS project sheet for this Point Reyes Project yesterday so I was surprised when I saw the CDX DEIS notification today.

Regarding my overall schedule the RDEIS - Sierra National Forest and Sequoia National Forest Plan Revision is due September 17th and I will have the draft letter to you August 12, 2019 per your direction. The Point Reyes DEIS is due September 23 so I think I could manage to get the draft letter to you but September 7th.

So I just want to avoid duplication of efforts so let me know if I should continue working this project or brief Jason on my work on it so far.

I know your calendar says you are out today and you are going to be off a few days or on travel soon so I have Cc'd Jason, Stephanie and the other management team members for clarification.

Hope this helps,
